

ZiTTO

**WORKPODS
BREAK OUT AREA**

Sound Absorbing Material Integrated into
FUNCTIONAL FURNITURE

ELEMENTS

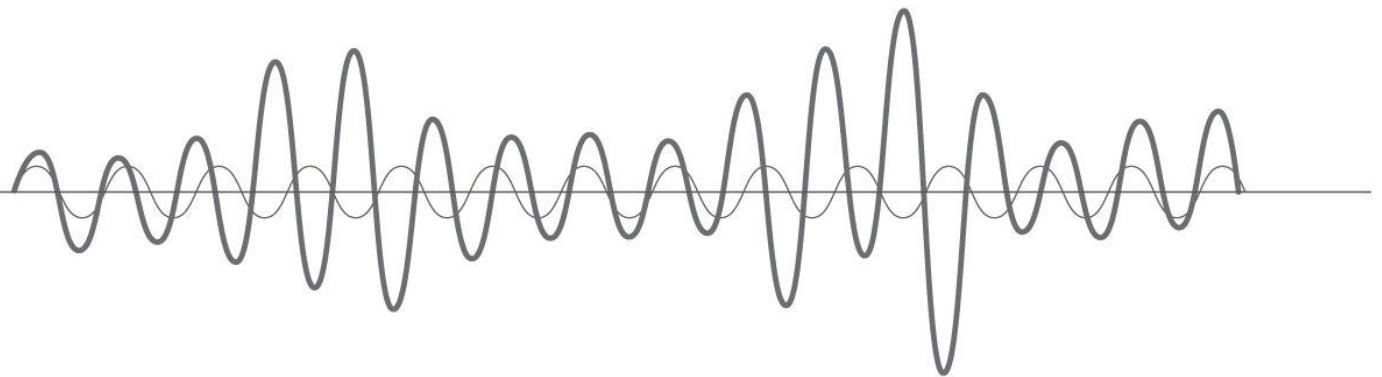

Zitto are straight line panels with angular corners. Inspired by “rectilinear” with a general definition of “geometry”.

The design by performance of the modern offices, technology integration and the direction of organizational change are the driving force behind the Zitto collections.

From traditional workspaces to shared individual workpods or to group spaces, effective space planning can be determine easily by various linear configurations and solutions offered by Zitto.

NOISE

is one of the greatest causes of stress of our times. It surrounds us and puts a strain on our bodies. Our ability to relax and our concentration greatly depend on the acoustic environment in which we **LIVE** and **WORK**. The balance in the acoustics creates a tranquil setting and provides a means to focus on the matter at hand.
